That is the answer and I will leave it up to you to decide if you want to send it.

Good evening Councillor Fleury,

My proposed response for you to provide would be as follows;

Good afternoon Mr. O'Hoski,

You raise a good point and I understand your frustration.

By-law and Regulatory Services is working closely with the Ottawa Police Service and other partner emergency services through the National Capital Region Command Centre and Emergency Operations Centre command structure to ensure public safety is upheld during the ongoing occupation downtown. By-law and Regulatory Services' role in the ongoing demonstration is to support the lead enforcement agency, the Ottawa Police Service, in keeping the demonstration peaceful by assisting with issues as requested by the Ottawa Police Service. By-law and Regulatory Services continues to support the police-led Quick Response Teams to enforce by-law infractions in the red zone.

It is important to note that given the breadth and fluidity of the activities taking place in the downtown core, enforcement action requires the planning and coordination of multiple enforcement agencies working together and triaging based on priority. Additionally, there are numerous factors at this time

that limit By-law and Regulatory Services ability to conduct regular operations in the impacted areas, including the added complexities in the process of securing a tow in the red zone.

Please do not hesitate to reach back out should you have any further concerns.

See below from Rideau Centre.

What should I answer him? I think he raises a fair point.

Mat

Thanks for the support Mat, obviously I'm glad the truck is gone but this does raise some major concerns for us. Between the three groups... OPS, By-law, and Regulatory Services after discussions in their Emergency Operations Centre (EOC) still couldn't manage to tow a single pedestrian vehicle that was engaged in illegal activity from a private lot in a 36 hour window.

Hello Councillor Fleury,

Thank you for your email.

I wanted to give you an update about the situation. The EOC worked this afternoon with partners in the Ottawa Police Service and By-law and Regulatory Services to put a towing solution in place. The tow was booked for this evening; however, the vehicle left the parking lot beforehand. We will continue to monitor the situation.

Please do not hesitate to reach out if you have any questions.

Thank you,

Melanie

Hello Councillor Fleury,

Thank you for your email.

We're looking into this and will get back to you.

Best,

Melanie

Hi Councillor,

Sending to the Councillor Liaison email inbox a wholesome review and response as this area is in the area is under Police Command and we continue to work with them through the NCRCC for attendance and enforcement.

Hi Jenn,

See below.

How can by law assist Rideau Centre with this issue in their parking lot?

Mat

u are aware we have been concerned about the illegal occupation for the Rideau/Sussex intersection for weeks now. That concern is growing to fear as it appears the protesters seem to continue to fortify the area with no resistance or intervention from authorities.

They have realigned the semi trucks and created a secondary barrier with winnebagos. They continue to supply fuel and supplies, and over the weekend Police even allowed a pumping truck from Lameroux pumping in to empty their portable toilets.

On a side note, Lameroux Pumping had parked a red pick-up truck in my underground parking with a diesel fuel supply tank in the back and protesters were going back and forth filling portable gas cans and carrying them out to the demonstration. I personally called 911 at 10:30am yesterday as this kind of activity (open fuel transportation and distribution in an enclosed space) poses a tremendous risk to my property and people. Police did show up and waited for the individuals to return. We had also requested a tow from bylaw as this is private property. That truck is still in my parking lot and I was not supported by by-law. It's been over 24 hours.
